

ISME Sponsorship Grant- Financial Report 2023

The Executive Board was deeply appreciative of the €5000 grant from ISME. The Registry and Nomenclature Working Group was asked to decide how these funds could best be used to further the development of the SeqCode Registry, as documented in the minutes of the SeqCode Committee Executive Board meetings:

<https://zenodo.org/communities/seqcode/records>

A portion of the funds, €2000, were used to support data curation efforts that have resulted in the validation of 585 names and endorsement of 249 names as of September 2024, in addition to the registration of published *Candidatus* lists (published under ICNP) into the SeqCode Registry. These funds were executed by the University of Pretoria (South Africa) under supervision of Prof. Fanus Venter, with additional supervision and oversight of Ass. Prof. Luis Miguel Rodriguez Rojas at the University of Innsbruck (Austria).

The ISME sponsorship of the SeqCode Registry Curation and Editorial Team is duly acknowledged in the SeqCode Registry website <https://registry.seqco.de/page/about>:
